"My God, Jordan! You were born to be a star and they've made a flunk of you!" Were the words of Fanny, the actress to a superannuated preacher. "Oh, don't think for a moment that I regret my choice. I would rather have climbed the croaky steps of my little pulpit than mounted any throne, or sat in the seats of princes, or ridden on the fiery chariots of conquerors. Old men have won fame and wealth, but I have won souls. I have dealt in eternity. I have baptised children and set their feet in the path of righteousness, and I have walked in the shadow of the dying, and I have prayed above the graves of those who have died into the everlasting life. I have eaten of bread that you know not of. I have brought good tidings of great joy. I have had little money and much labor, but I have had God," said the old preacher. Keep this in mind for the contribution we expect to make to these soldiers as an Easter offering.

Mr. Clarence Dannelly secretary of Sunday schools of this conference, will spend all of April 29th at Elba Methodist church in an all day institute. All the surrounding churches and schools are cordially invited to hear this gifted and enthusiastic worker.

We extend sympathies to the children and grandchildren of Mrs. Elizabeth Ham, who was buried at Beaver Dam church on last Monday.

Mrs. Gordon Prescott who has been sick for the past two weeks is well again. A good congregation met the preacher at Liberty last Sunday. Thank You.

We were glad to see many out at Elba last morning hour. Our streets are well lighted, and there is a constant movement by everybody's door in town, which makes it easy to come at night. Meet us at church at night.

Prof. Kersh will lecture at the teachers meeting Friday night.

We were glad to see Mrs. Lovelace, able to be with us Sunday, after so long a confinement to her home, from sickness.

THE COUNTY AGENT AND FARM BUREAU

BY R. G. ARNOLD

Last week, in addition to the co-operative orders for fertilizer handled, we carried Mr. McCully, Farm Bureau Cotton Association field man from Montgomery to several communities in Coffee County and held night meetings with the farmers, explaining the work, aims and accomplishments of twenty thousand farmers of Alabama banded together in 1921 for pooling cotton. Much interest was manifested by the farmers at Kinston, Battoson, and County Line communities. We were not soliciting members on this tour but rather explaining just how co-operative marketing could be of benefit to our farmers, so that when we launch our campaign for Farm Bureau members, this will be no new thing to the people. These meetings have been held in practically every community in the entire county and we shall continue to hold them, and if anyone has been missed, drop us a card and we will come your way.

The Egg Pool In August.

Mention was made in last issue of the organization of the Alabama Farm Bureau Egg Marketing Association in Montgomery a few days ago, where Mr. Pittman and myself represented this county. The idea of this giant State Egg Pool is to keep the prices from fluctuating so widely at different seasons of the year, and of course to keep the price of eggs up as much as possible. Arrangements will be made with the merchants in each community to collect these eggs, candle and grade same and ship to the Association. Each pool will be closed out every two weeks and paid for, and we believe that this new manner of marketing eggs will greatly stimulate the poultry industry in Coffee County.

Hogs, Milch Cows, Chickens, Syrup.

We are not happy over the prevailing condition now in most people's minds to treat the above crops as if they were out of the crops and we will keep you out of debt, mortgage and distress. Sweet potatoes will be worth a dollar per bushel next year and every farmer should have five hundred to a thousand bushels for sale. We are trying to get a few curing houses built which are expensive and will keep the potatoes sound and good throughout the year. We propose to assist farmers to market their crops, but we sure can't unless these crops are produced. Production is necessary before marketing.

Don't Forget The Boys And Girls Club Work.

We want to see the best exhibit of poultry and pigs at the World Show next fall that is possible to make, so let your boy or girl have a part in these exhibits. Send us their names.

KILLS LARGE RATTLER.

Mr. J. L. Willis, who lives about 7 miles north of Elba, was here yesterday and reports the killing of a large rattlesnake while fishing on a creek early Wednesday morning. Mr. Willis had the snake rattles as a souvenir. The snake was about four feet long.

Mrs. Wayne Lee, of Panama City, Fla. is the guest of relatives at Elba this week.

Mrs. W. C. Corley, of Troy, is visiting Dr. and Mrs. W. P. Boyd.

Mr. Tom Hutchison spent a few hours Sunday in Dothan.

KU KLUX KLAN WILL PUT ON BIG CEREMONIAL AT ELBA.

According to announcement made in an advertisement in another column of today's paper, the Ku Klux Klan will put on a "Naturalization Ceremonial" at Elba on next Friday night, April 25th.

According to the announcement there will be more than a hundred candidates for this ceremonial, and Klansmen are to be here from many different parts of the State. The following proclamation has been issued by the Mayor:

W. M. S. ENJOYS A SOCIAL MEETING.

The W. M. S. of the first Methodist Church entertained with a social at the home of Mrs. R. L. Cooper on Monday afternoon, honoring Mrs. F. A. Symonds and Mrs. Osborne Rainer. Wicker baskets of Easter Lilies and wisteria made the living room very attractive. The following program was given:

Scripture reading and prayer—Mrs. F. M. Lowrey. Piano Solo—Miss Nan Marley. Talk: Friendship—Mrs. F. M. Lowrey.

Vocal Solo—Miss Sallie Page Reading: The Things You Cannot Forget—Guest—Miss Gusie Rainer.

During the social hour Miss Nan Marley played beautifully. The honorees were presented with beautiful corsage bouquets of Easter Lilies and ferns. Mrs. E. F. Speer, of Wetumpka, and Mrs. V. J. Elmore, of Clanton, were the out-of-town guests.

Mr. L. C. Powell, of Troy, was here last week.

Mr. Lee Livings and family, of Jupiter, Fla., are spending a few days with relatives and friends here this week.</

MRS. W. W. HAM, SR. SUC-
CUMBS TO ATTACK OF
PNEUMONIA.

Opp Weekly News says:

Mrs. W. W. Ham, Sr., age 80, who had for several years been suffering from heart trouble succumbed to an attack of pneumonia of about two days duration on last Sunday night at the home of her son, Dr. N. M. Ham of this place. She came from one of the oldest and best known families of the state and was widely known. Her husband, W. W. Ham, Sr., died about two years ago.

Funeral services from the home were conducted by Rev. Jack Wilson of Glenwood. Several cars from this place accompanied the remains of the beloved woman to her last resting place at Bever Dam cemetery ten miles north of Elba. The procession from here was joined by hundreds of people from Elba, where she had lived and was generally known.

Deceased is survived by: Sons, J. N. Ham, Jiles Ham and Jack Ham of Elba, Dr. N. M. Ham of Opp. Daughters, Mrs. Fannie Hudson of Elba, Mrs. Andrew Morrow of Florida, Mrs. Dan Cowen and Mrs. Jim Cowen of near Opp.

PIONEER FARMER OF COV-
INGTON IS HOLDER OF
RECORD.

Andalusia Star says:
Public prints recently called attention to what appeared to be and in fact is, a very unique fact. It has been learned that one of the oldest settlers of Missouri who is in his seventies and is the owner of a mule the latter having arrived at the ripe old age of 32. Covington county folk have a faculty for "fading" fish yarns or most anything and here is a true story that eclipses the Missouri mule incident in every respect.

According to substantial ad-
vices received from Judge A. R. Powell, there resides eight miles from Florida this county, one, Uncle Jim Powell, 84, life-long resident of the county, who owns and plows a mule 42 years old. This member of the "him" species has the distinction of being the dean of his kind in this county, and very probably in many states. It is not known as to tenderness of this mule to kick out his stall of sheer devilry or to jump ten foot rail fences, but it is known and substantiated that he still follows the furrow and is able to worry down "three squares" a day.

CARD OF THANKS.

We truly and sincerely
thank all the people of our community for the helpful hand given us during the illness and death of our father, Randall E. Hudson, May God bless you all.

His Children.

SECOND MEMBER OF FAMILY KILLED BY TREE IN FALLING.

Abbeville, Ala., April 11.—Caught beneath a falling tree, Edward Solomon Starling, 35 years old, was crushed to death on Wednesday afternoon nine miles south of Abbeville. It was the second tragic death of the kind in the Starling family within two years as a brother, Elbert Starling was killed in an identical manner April 13, 1922.

Edward Starling and Sam Causey were cutting logs Wednesday afternoon when one tree lodged against a smaller one. It was the smaller tree, bent under the weight of the heavier one, that snapped off some twenty feet from the trunk and flew back catching Starling with full force and inflicting an injury from which he died in about an hour and a half.

Mr. Starling was buried by the side of his brother at Mt. Zion cemetery. Elder T. T. McGowan preached the funeral sermon. He leaves a wife and three children.

MORTGAGE SALE.

Default having been made in the payment of the indebtedness secured by that certain mortgages executed to THE FEDERAL LAND BANK OF NEW ORLEANS, by C. C. EAGERTON, dated August 16th, 1920, and recorded in the office of the Judge of Probate of Coffee County, Alabama, in Book No. F-3 of Mortgages, page 206, at a court, the undersigned, in and in a short time three or four shots rang out. Then all was still.

Hatcher and the other man, according to orders, walked down the road and after they had rounded a bend in the road, out of sight of the car, they heard the woman scream, and in a short time three or four shots rang out. Then all was still.

Hatcher and his companion returned to the car, where they found Sapp standing on the ground with his pistol in his hand and Mrs. Hatcher in the back seat of the car. Sapp ordered the two men to examine the woman to ascertain whether or not she was dead, stating that if she was not dead he was sure going to finish her.

Hatcher examined the woman and reported to Sapp that she was dead, whereupon Sapp put his pistol in his pocket and walked off.

In a short time Hatcher got in communication with Black and reported the killing. Charles Pate, Marshal of Black, responded and proceeded to the scene of the killing. When he arrived at the car the woman was seated in the rear seat, looking as though asleep, but was dead. Mr. Pate called Sheriff Tom Johnson on the phone and reported the affair. Sheriff Johnson phoned for blood hounds at Westville, and in a short time the dogs and the sheriff were on the ground.

The dogs took the trail and followed it for several miles when the scent was lost, and it is supposed the fugitive caught a passing car and left the community. The sheriff and his deputies are working the case, but up to the present Sapp is still at large.

BAPTIST CHURCH.
Preaching 11:00, a. m. and 7:30 p. m. by Chas H. Gernon Pastor.

Sunday School 9:45 a. m. J. C. Fleming, Superintendent.

Some of the encouraging features of our church work at present are: increased attendance at Sunday school, greater interest in the teaching and devotional services of the church and good singing, both special and congregational.

The Sunday school was the best last Sunday we've had in quite a while. There were four 100 per cent classes and two others that lacked the presence of two members to make them 100 per cent classes.

Much interest is being manifested in the prayer meeting topics that are being discussed on Wednesday evenings. The singing has been exceptionally good for the last two Sundays.

Special preparation is being made for the musical part of our program next Sunday. We hope to have some special Easter music.

There will be no prayer meeting at the church next Wednesday evening on account of Dr. Gwaltney's lecture, "European Travel and Observation," to be delivered at the City school auditorium. It is hoped all Baptists, as well as all citizens of Elba, will take advantage of this opportunity to hear Dr. Gwaltney's splendid lecture.

Let us all do all we can to make the Sunday school larger and better next Sunday, than ever before and all classes 100 per cent.

It is likely Dr. J. O. Colley will preach for us at the 11:00 o'clock service. He will have something good in store for us. Let us have a large attendance next Sunday.

A cordial invitation is extended to all to attend the services of the church. Strangers and visitors are always welcome.

"I believe in the resurrection of the body and the life everlasting." There are more people in the cemetery in Mobile than are in the houses of that city. There are more people in the sea and the earth than are walking about over the earth. Are they really in their graves? No! Every one is in full possession of his faculties and capacities somewhere in God's universe. The greatest wonder in the writer's experience was the awful power in Dewy's flagging, awful in its power and speed and conquest. We do not remember how a single soldier ever looked. But since then we have realized that the most important thing there was not the ship, but the men; for the ship has been scrapped with thousands of others. But a million years from now those men will just be in the beginning of life.

"If a man die, shall he live again?" This can be answered only with a shout, "YES." Let me describe the house of those you have loved and lost awhile. In many houses there are many mansions. I go to prepare a place for you."

Mr. Hudson retired from active work several years past on account of a lame leg caused by typhoid fever. With this exception he is in the best of health.

Mr. Hudson lost his wife some four or five years ago and now makes his home with his youngest son, Mr. Grover C. Hudson who resides at Enterprise, Ala., being in the employ of the government as a rural mail carrier. Mr. Hudson has one brother, James H. Hudson, and two sisters, Mrs. Mary J. Shields and Mrs. Jeff Bragg. Both were at the celebration.

Mrs. Shields resides with Mr. Hawkins and is in feeble health, and that was the reason for her being at the celebration. With best wishes to all and everyone.

Mr. Hudson retired from active work several years past on account of a lame leg caused by typhoid fever. With this exception he is in the best of health.

May Mr. Hudson see many more years and live to a ripe old age and on or near the 12th day of next April be present at another pleasant occasion for everyone of his present offspring being living and be able to meet him there to enjoy his presence.

NEGRESS 115 YEARS DIES IN DALLAS COUNTY.

Selma, Ala., April 14.—News reached Selma today of the death last Thursday of Isabelle Morse, a Negress, 115 years of age, on the C. W. Woods plantation near Burnsville.

The old negress was known to white and black as "grandma" and was a familiar figure sitting under a tree taking care of the negro children of the plantation. Six generations were born and reached their majority within her memory. She was an old woman as far back as the oldest white citizen in the Burnsville neighborhood can remember and was never sick in her life until her fatal illness last week.

She was believed to have been the oldest inhabitant of Alabama at the time of her death.

VOLUME XXVII.

COUNTY RECEIVES BIG TEN TON TRACTOR AND OTHER MACHINERY; WORK ON ROAD FROM ELBA TO SAMSON WILL START SOON

Coffee County last week received the large Holt 10-Ton Caterpillar Tractor and the large grader which will be used in building roads for the county. This machinery was not at Elba ready to be put to work.

According to Judge Carnley he is expecting a representative from Atlanta, even now, to start the big Tractor working, and when this man arrives it is planned to put the machine to work on the Elba-Samson road, starting perhaps at the Primitive Baptist church just across the river from town or just beyond the Tan Yard branch.

For the past few days a crew has been at work pulling the large oak trees in the right-of-way between the church and the branch and by the time the machine is ready to run this work will be completed. The right-of-way along this road from the Geneva county line to Elba has all stumps cleared and all standing trees pulled.

Elba people as well as people generally along this road are highly elated over the fact that the county will begin this work right away. The citizens all along this road have given every assistance and have cooperated in every way in placing this road in shape to be worked with the new road machinery.

If present plans carry this will be one of the best roads in this section of the county when the work is completed. The road will be made standard width and will be one which will accommodate hundreds of citizens who do not now enjoy a good road.

According to Judge Carnley the county has planned to rebuild the bridge over Buck's Mill Creek. This bridge will be made much wider and will also be rebuilt of much heavier material in order to take care of the traffic over this road.

Another important feature of the new road will be the improvement of the under-pass at the A. C. L. railroad crossing. Officials of the railroad have promised to build concrete headwalls at this crossing and also to put a steel span across the road. A representative of the railroad has been at Elba on one or two occasions making plans for this work and it is supposed that this improvement will also be made at an early date.

With the new road machine and the Holt Tractor, it is said that a road can be built much quicker than by any other method, and demonstrations with an outfit like this have already proved quite satisfactory to county officials. This is the second tractor which the county has purchased, the other one being in use on the Eastern side of the county. With both these large tractors at work together with other equipment now being operated, county officials plan to give the people of the county more good roads than could be given by any other method. Of course all roads of the county cannot be worked within a few weeks—it will take many months—and those who are in position to know feel that the county is getting full value for money the reason for this work and building.

Much interest is being shown in the building of the Elba-Samson road, and people generally will be glad when this work is started, and will join heartily in commending the county officials for their efforts in improving the highways of the county.

Mr. Tom Tatom, of Montgomery, was a visitor at Elba Tuesday.

THE COUNTY AGENT AND FARM BUREAU

BY R. G. ARNOLD

Position Boll Weevil Just Before Squares Form.

On account of some expense attached to machines for properly putting out calcium arsenate on cotton plants, most farmers are not planning to use any position at all, but this is a mistake: Calcium arsenate is a position of the boll weevil, and should be used on every farm. The writer has had several years experience with position methods and knows that a position properly applied will pay. Now the first application can be applied by every farmer in the county, since it requires no expensive machinery. Take a sack of the dust arsenate and just over the young plants just before the squares begin to form, the later you wait the better just so you get the position on the bud before any squares form, as the weevil gets into squares then and is hard to handle.

COUNTY BUYS LAW MEMBERS OF RAINER PROPERTY FOR USE AS FAMILY INJURED SUNDAY IN AUTO WRECK

A deal was closed the first of last week whereby the Commissioners' Court of Coffee County purchased the home of Mrs. I. T. Law on the hill East of Town, which will be used in the future as the County Almshouse.

This home is ideally located for the home of the unfortunate of the county, being located near enough to be in easy access to the people of the town. It is understood that the Commissioners will make some improvements in the property, perhaps adding several new rooms to the building. It is stated that quite a lot of new furniture will be added to the equipment for the home.

The present almshouse is now and has been for some time in a bad state, and for several months efforts have been made to make a change in the location. The old property will be sold if it is stated.

The county officials are to be congratulated on this move to give these unfortunate people a more desirable and a more healthful place in which to live.

MISS EVA LEE ENTERTAINS FOR MISS HORN

The home of Mrs. Gardner Clark was the scene of a lovely party on Saturday afternoon when Miss Eva Lee entertained for Miss Hattie Horn, of the Troy Normal. Wicker baskets of pink roses and fern made the living room very pretty. Here four tables were arranged for bridge. After the games the hostess, assisted by her sister, Mrs. Clark, served a plate course.

LIBERTY ITEMS.

The J. M. S. invited the Sunday school to an Easter egg hunt at Mrs. Foley's Saturday afternoon. We did not count the children, but believe about one hundred attended. The Junior meeting and helped in the hunt for eggs hidden in the woods. All reported a nice time.

The Juniors had a short program after Sabbath school, Sunday afternoon.

We intended to have an all day program the first Sunday in May with Sunday school recitations and songs in the morning. Address by Dr. Braswell and probably others in the afternoon.

Preaching at three o'clock. Everyone is cordially invited, there will be dinner for all.

WOULD LOCATE GREEK COLONY HERE.

Mr. J. L. Wheelchel, of Birmingham, is spending a few days at Elba at the Brick Hotel. Mr. Wheelchel is seeking a location for a Greek Colony, and is here to look over our lands and get in touch with land owners. These colonists will engage in truck farming, and Mr. Wheelchel says he sees no reason why some could not be located in this section as our lands seem to be adapted to trucking.

Mr. and Mrs. W. F. Cooper spent Monday in Montgomery.

THE COUNTY AGENT AND FARM BUREAU

BY R. G. ARNOLD

Position Boll Weevil Just Before Squares Form.

On account of some expense attached to machines for properly putting out calcium arsenate on cotton plants, most farmers are not planning to use any position at all, but this is a mistake: Calcium arsenate is a position of the boll weevil, and should be used on every farm. The writer has had several years experience with position methods and knows that a position properly applied will pay. Now the first application can be applied by every farmer in the county, since it requires no expensive machinery. Take a sack of the dust arsenate and just over the young plants just before the squares begin to form, the later you wait the better just so you get the position on the bud before any squares form, as the weevil gets into squares then and is hard to handle.
